

## CONSUMABLE HC8200 FOR SPARKULAR TRIPLE

HC8200 is granulated alloy which is designed and produced by SHOWVEN, used on SPARKULAR series machine to generate sparks effects. The component are metal, thus ensure the safety during transportation, storage and usage. For different application scenario the consumable for SPARKULAR TRIPLE divided into two types: HC8200 MEDIUM, HC8200 LARGE.

### Features

Granulated alloy, non-hazmat for storage;  
DMG tested, can be shipped by air/sea;  
RoHS certified, environmental friendly.

### Specifications

#### Package

200g/bag, Aluminum foil vacuum package.  
12bags/box, 12boxes/carton.

#### HC8200 consumption

Around 17g/min\*3

#### Effects Height

HC8200 MEDIUM: 2.0-4.0m

HC8200 LARGE: 2.0-5.0m

**EFFECTS**
